St. Louis (Date, 2011) – Amerinet Inc., a leading national healthcare solutions organization, announces a new agreement with IMCO® Technologies for critical test result and radiology over-read management software.

Effective through August 31, 2014, this contract offers Amerinet members significant savings on IMCO-STAT and IMCO-Peer Review IT solutions for automating and documenting the exchange of information between medical professionals. These unique software suites help improve the quality and cost-effectiveness of patient care by minimizing the risk of miscommunication and stream-lining out-dated manual over-read procedures.

IMCO-STAT uses automatic receipt confirmation and an events log to securely and rapidly transfer critical patient-care information, providing an audit trail that protects clinicians from malpractice lawsuits. IMCO-Peer Review allows radiologists to electronically collect, review, analyze and report on the performance and risk information required by the American College of Radiology.

About IMCO Technologies

Founded in 1990, IMCO Technologies is committed to providing cutting-edge software solutions to the global medical marketplace. Based in Pewaukee, Wis., IMCO is a leader in bringing new technologies rapidly to market and are used in a variety of healthcare settings including hospitals, imaging centers, clinics and orthopedic practices. Offering off-site diagnostics and 24/7 support, IMCO knows what it takes to help their clients meet their IT goals. To learn more about IMCO Technologies, visit www.imco-tech.com.

About Amerinet

As a leading national healthcare solutions organization, Amerinet collaborates with acute and non-acute care providers to create and deliver unique solutions through performance improvement resources, guidance and ongoing support. With better product standardization and utilization, new financial tools beyond contracting and alliances that help lower costs, raise revenue and champion quality, Amerinet enriches healthcare delivery for its members and the communities they serve.
